Trailers In Action [Go to YouTube](#) postings by ARAFFF136

- Totes are industry standard shipping storage containers.
- Tote trailers are less expensive than complex, heavy, poly-tanks rigs.
- Available in single, dual or triples.
- Second or third tote can be used to for decon. haz-mat recovery or training.
- Totes are transparent (see liquid level).
- Totes are fork-lift friendly.

- Two people can handle an empty tote.
- Class A-B option: one tote 1x3 ethanol listed AR-AFFF, one tote Class "A" wetting agent
- Foam concentrate is transferable using a simple, portable, electric transfer pump.
- If trailer breaks down the foam is quickly salvageable
- Foam systems and discharge manifolds range from 60 to 2000 gpm.
- National Universal Gold 1x3% AR-AFFF foam cuts 3-6% foam inventory by 50%.
